

What's new in **FRONTEND DEV** in 2023?

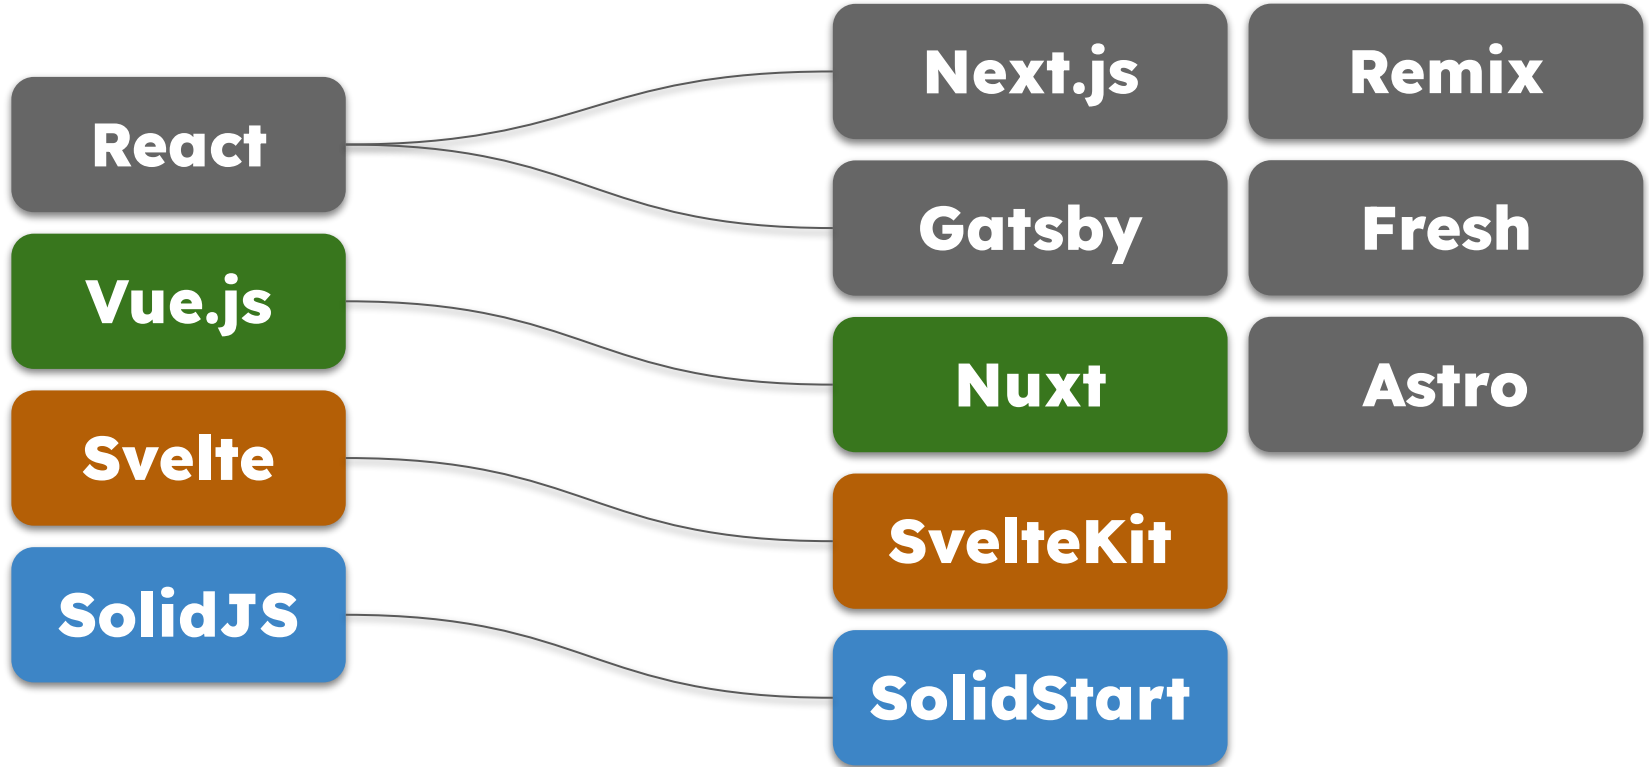

Sebastien Castiel
scastiel.dev – @scastiel

Montreal JUG
March 29th, 2023

UI libraries

Frameworks

Why frameworks?

Tooling

Client utilities

Ecosystem

Routing

**Static Site
Generation**

SERVERLESS

SERVERLESS EVERYWHERE

Serverless for the frontend?

**Server-Side
Rendering**

**Incremental
Site Generation**

**Image
optimization**

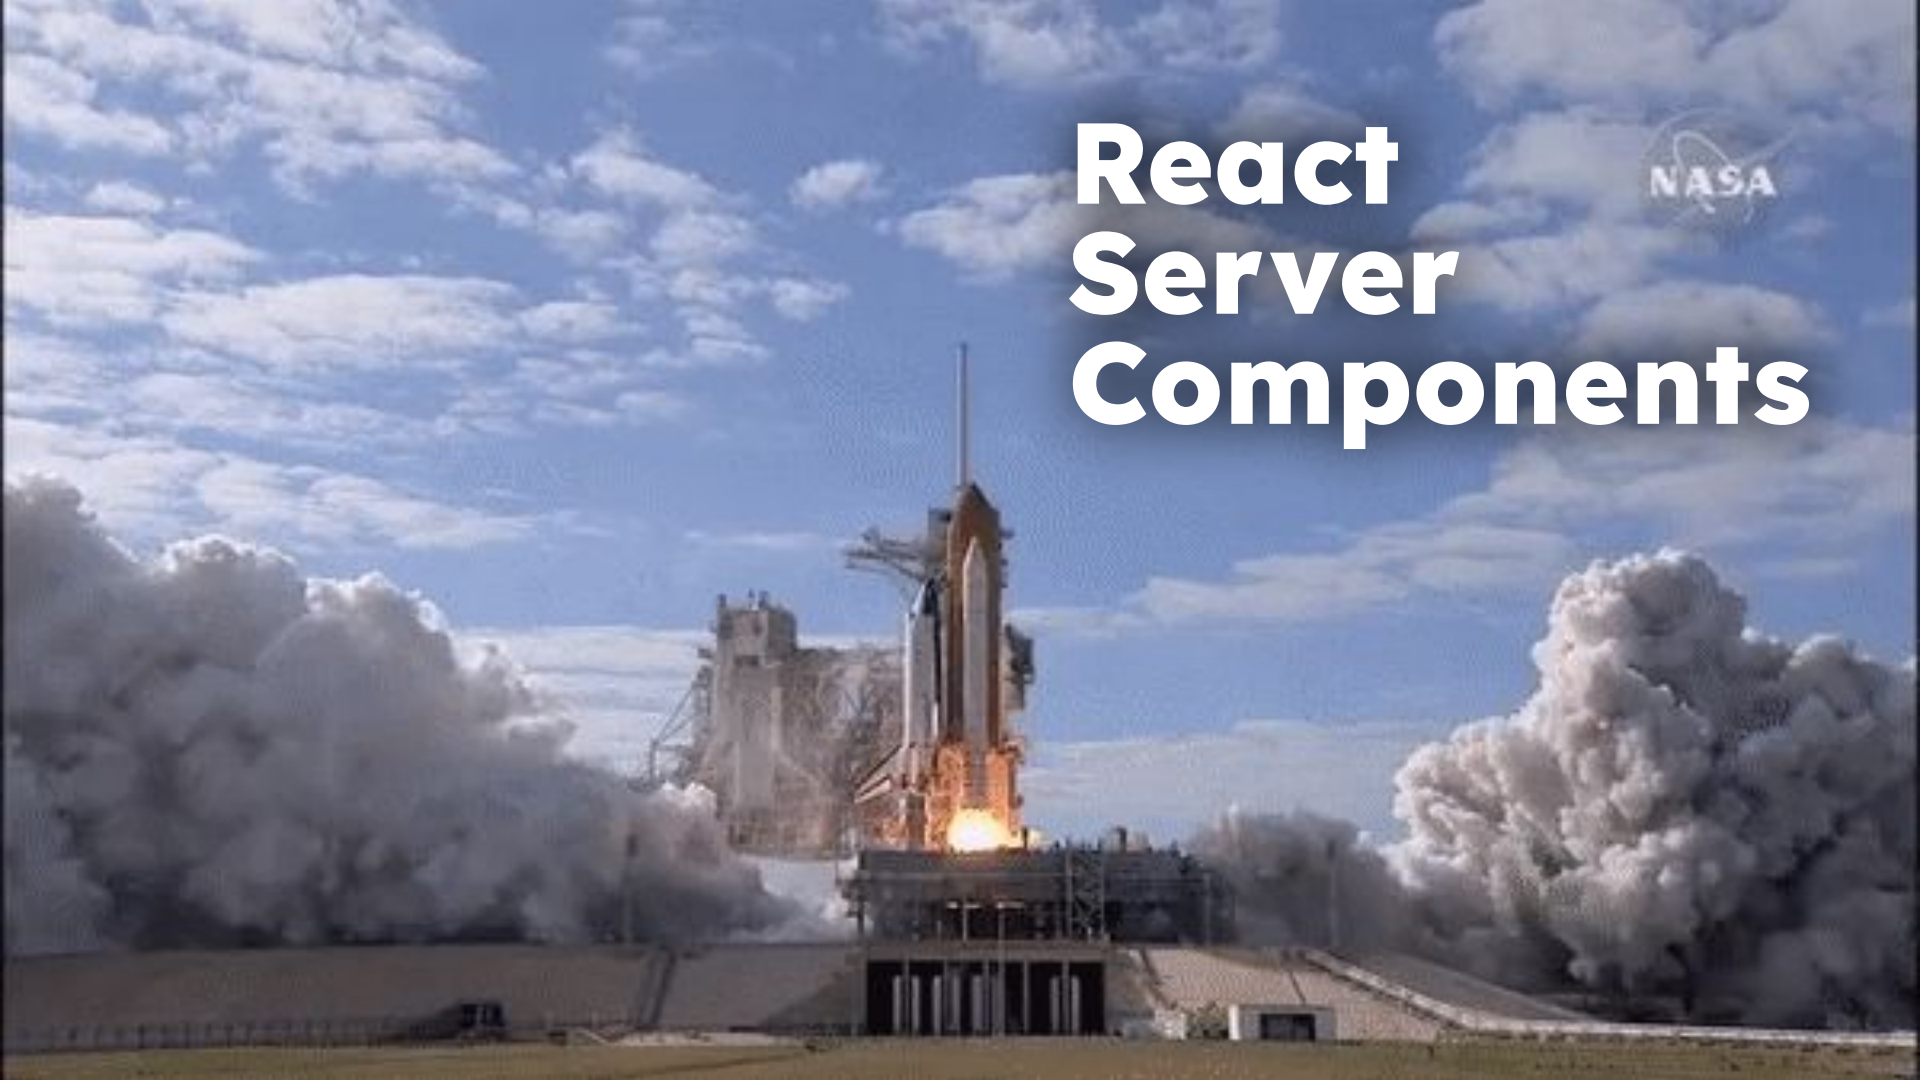

**Image
generation**

Databases

Authentication

React Server Components

NASA

Client components

Interactivity

Browser APIs

Calling an API

Forms

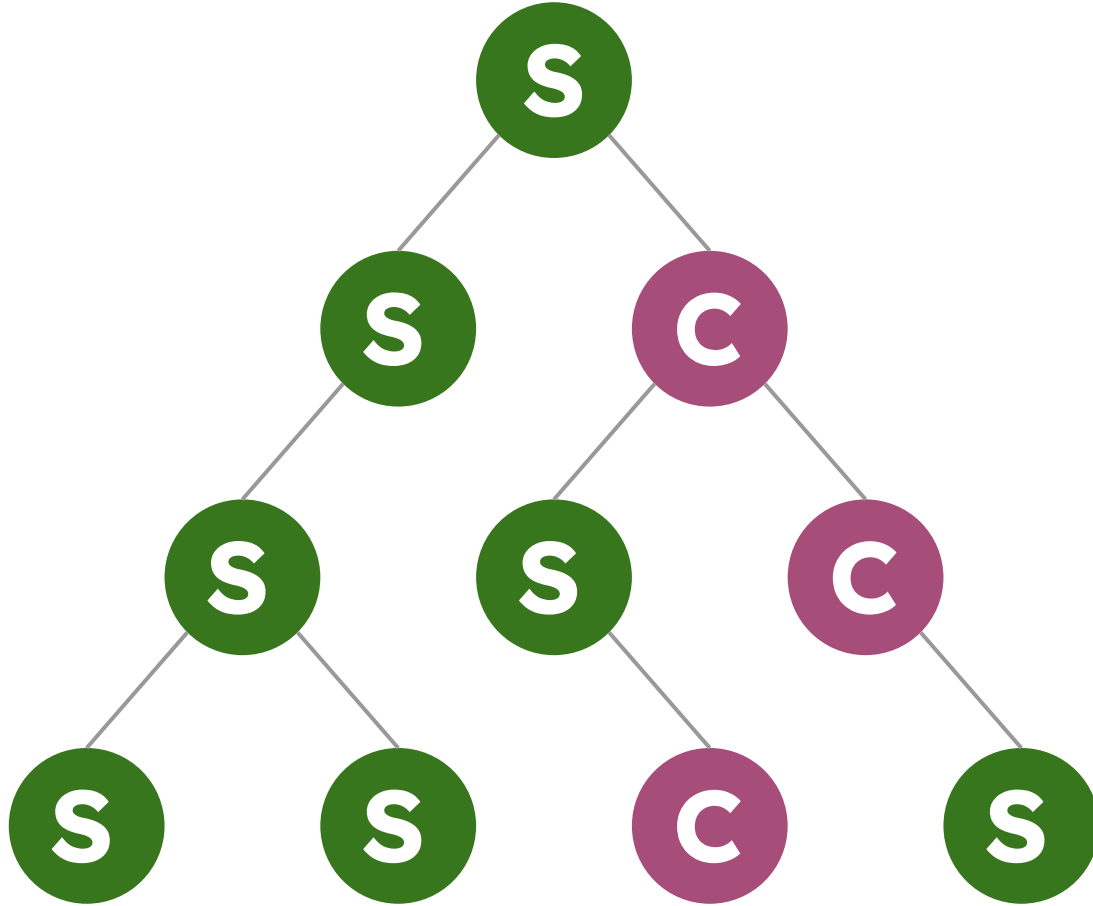

Server components

Database

Internal APIs

Async

 *The default!*

In conclusion...

**Frontend is not
just client-side
anymore**
